

Student Assistant (HiWi) for coding tasks

The **Chair of Political Economy** at the Institute of Economics (ECON) is looking for motivated student assistants to join our team. Our research focuses on Behavioral Economics, Experimental Economics and Game Theory. Learn more about us at <https://polit.econ.kit.edu>.

Your responsibilities:

- **Implementing modifications to existing experimental software** (primarily in Python)
- Assisting in the implementation of online experiments
- Providing administrative support for the chair

Your profile:

- **Strong programming skills** (in Python, Java etc.)
- An interest in Behavioral Economics or Game Theory is an advantage, but no prior knowledge of Economics is required.
- Good command of the English language

We offer:

- The opportunity to actively participate in research projects and gain hands-on experience in conducting experimental economics research
- Flexible working hours (remote work is possible)
- A workload of 20–30 hours per month, to be agreed upon before the start of the contract
- Start date: September/October 2026 or later

How to apply:

Please send your CV together with your university and high school transcripts to:
Sibille Hackel (polit@econ.kit.edu) and Dr. Hannes Rau (hannes.rau@kit.edu).

We look forward to receiving your application!
