8th HeiKaMaxY

in Mannheim on July 1st, 2022!

The eighth HeiKaMaxY workshop (Heidelberg-Karlsruhe-Mannheim Experimental Workshop for Young Researchers) will take place **in person** on Friday, July 1, 2022. The HeiKaMaxY is a format that aims to bring together **young** researchers from Heidelberg, Karlsruhe and Mannheim for one day to discuss both complete papers and research ideas in Experimental and Behavioral Economics. It is designed to complement the existing HeiKaMaX in allowing more room for discussion and offering shorter slots for the presentation of ideas. Additionally, the HeiKaMaxY emphasizes networking among the young researchers through a joined lunch and dinner.

Interested PhD students, post docs and assistant professors are invited to submit a research paper or abstract to one of the organizers **by June 20**. Please indicate whether you want to present a full paper (40 min) or a research idea (20 min).

We are looking forward to seeing you in Mannheim!
