

RESEARCH ASSISTANT: Programming and AI Studentische Hilfskraft (Hiwi)

The Chair of Political Economy, held by Prof. Dr. Nora Szech, is part of the ECON Institute. Our main research topics are markets, behavioral economics and experimental economics. As support of our Chair, we are looking for one or two new research assistants to join our team.

Your tasks as research assistant at our chair:

- Working with data, e.g. extracting data from websites and social media
- Survey programming
- Evaluation of data

Your profile should include:

- Reliability and team spirit
- High working motivation and willingness to acquire new skills
- Knowledge and strong interest in AI and data mining
- Prior experience with statistical software and a strong interest in learning software
- Good English skills
- Some Mandarin skills are a bonus, but not a must

We offer you the chance to actively engage in our research projects. Our research has been published in leading outlets such as Science, Review of Economic Studies, and Management Science.

Starting date: May or June 2020

Working Time: 20-40 hours per month

Please apply until April 20th, 2020 with your CV and a transcript of records (Abitur and grades from your university studies) to Sibille Hackel (polit@econ.kit.edu). For any questions, please contact Lixuan Zhao (Lixuan.Zhao@kit.edu).

We are looking forward to receiving your application!
