

As support for our Chair, we are looking for a

## **RESEARCH ASSISTANT (Programmer)**

### **Studentische Hilfskraft (Hiwi)**

The Chair of Political Economy, held by Prof. Nora Szech, is part of the ECON institute. Our main research topics are market design, behavioral economics and experimental economic research.

**Your tasks will include working on experiments (e.g. at KD2Lab) and providing assistance with a focus on:**

- Programming experiments, e.g. in oTree (Python-based experiment software), SoSci, or other languages/platforms

**Your profile:**

- Interest in coding and learning new coding skills
- Ideally, you have gained some prior experience in programming (Python is great but other languages are a good start as well)
- Interest in economic experiments/ topics in Behavioral Economics
- Reliability and team spirit
- High working motivation
- Good English skills

We offer you the chance to actively engage in our research projects and experience diverse research methods and current projects at our Chair of Political Economy.

**Starting date:** August or September 2021

**Working Time:** 20-40 hours a month

Please apply with your CV and a transcript of records (Abitur and grades from your university studies) to Sibille Hackel ([polit@econ.kit.edu](mailto:polit@econ.kit.edu)). We are looking forward to receiving your application right now and until July 16, 2021!
