

As support for our chair, we are looking for a

RESEARCH ASSISTANT (Stud. Hilfskraft), 20–40h/month

The Chair of Political Economy, held by Prof. Dr. Nora Szech, is part of the Institute of Economics (ECON).

We publish on the highest disciplinary and interdisciplinary level (such as Science, Review of Economic Studies, Management Science).

For projects on health markets, **genetics** and **medicine (such as neurology and inner medicine)** we seek three new assistants to join our interdisciplinary and vivid team. Please see <http://polit.econ.kit.edu> for further information. Most of the job can be executed remotely if you prefer. But you are also very welcome to work at place, of course.

You will provide support for the chair and our research, including:

- **Studies on genetic testing and/or**
- **Studies on medical testing and/or**
- **Studies on neurology and market behavior**

Your profile:

- Knowledge of and interest in genetics and/or medicine
- Reliability and team spirit
- Good English skills
- Some knowledge of Mandarin (Chinese language) is a plus (but not mandatory)

We offer an opportunity to actively engage in our very interdisciplinary research at the research frontier.

Flexible starting date: Winter term (October) 2022 onwards

Working Time: 20-40 hours a month

Please apply with your CV and a transcript of records (Abitur/university entrance qualification and grades from your university studies) to Sibille Hackel (polit@econ.kit.edu) and Dr. Hannes Rau (hannes.rau@kit.edu).

We are looking forward to receiving your application!
